

AFTER - CARE EYEBROWS

AM & PM 10 DAY POST TREATMENT INSTRUCTIONS:

(BEGIN AFTERCARE ROUTINE BEFORE BED ON THE DAY OF YOUR PROCEDURE)

- WASH HANDS THOROUGHLY WITH ANTIBACTERIAL SOAP.
- BLOT EYEBROWS FIRMLY WITH A TISSUE EVERY 5-10 MINUTES FOR THE FIRST HOUR IMMEDIATELY AFTER YOUR PROCEDURE TO REMOVE EXCESS LYMPHATIC FLUID. THIS WILL HELP TO REDUCE SCABBING.
- ADD A PEA-SIZE AMOUNT OF "CLEANSE AFTERCARE" TO THE PALM OF YOUR HAND & MIX WITH TINY AMOUNT OF WATER.
- GENTLY PAT THE CLEANSER ONTO THE TATTOO IN THE DIRECTION OF HAIR GROWTH. DO NOT WASH/RUB AGGRESSIVELY.
- GENTLY RINSE THE AREA WITH A SMALL AMOUNT OF WATER.
- PAT THE AREA COMPLETELY DRY WITH A CLEAN TOWEL OR TISSUE.
- APPLY A PEA-SIZED AMOUNT OF "GLOSSED AFTERCARE" TO THE BROW BY DABBING GENTLY IN THE DIRECTION OF HAIR GROWTH.

AVOID THE FOLLOWING FOR THE NEXT 72 HOURS:

- NO SWEATING.
- NO SUNBATHING.
- NO WETTING, EXCEPT FOR DAILY AFTERCARE ROUTINE.
- NO TOUCHING, EXCEPT FOR DAILY AFTERCARE ROUTINE.

AVOID THE FOLLOWING FOR THE NEXT TWO WEEKS:

- RETINOIDS, GLYCOLICS, VITAMIN C, AHA/BHA'S, ENZYME WASHER, SERUMS, ETC.
- OTHER BEAUTY TREATMENTS SUCH AS LASERS, PEELS, WAXING, TINTING, ETC.
- HEAVY SWEATING: SALT REMOVES PIGMENT.
- PICKING, PEELING, OR SCRATCHING. THIS MAY RESULT IN SCARRING OR BALD SPOTS. LET ANY SCABBING FLAKE AND FALL OFF ON THEIR OWN.
- SWIMMING, SAUNAS, DIRECT SUN/UV EXPOSURE.
- ANY TASK THAT CAUSES SWEATING IN DUSTY/DIRTY PLACES; THERE ARE AIRBORNE MICROBES, MOLDS, & GERMS THAT MAY CAUSE INFECTION.
- DRIVING IN OPEN VEHICLES SUCH AS MOTORCYCLES, BOATS, CONVERTIBLES, BICYCLES, ETC.
- MAKEUP ON OR AROUND THE EYEBROWS.

OTHER INSTRUCTIONS TO FOLLOW:

- ONCE COMPLETELY HEALED, IT IS RECOMMENDED TO APPLY SUNSCREEN DAILY ON THE TREATED AREA TO PREVENT FADING & DISCOLORATION OF THE PIGMENT.
- AVOID BOTOX & FILLERS FOR THE NEXT THREE WEEKS.
- CONTINUED USE OF GLYCOLIC ACID, MICRODERMABRASION, CHEMICAL FACE PEEL PRODUCTS, & LASER TREATMENTS COULD LIGHTEN OR DISCOLOR THE PIGMENT.
- BOOK YOUR TOUCH UP APPOINTMENT NO EARLIER THAN _____ AND NO LATER THAN _____.

WHAT TO & EXPECT

BROW HEALING PROCESS

DAY 1

I love them! A little dark, but they will heal 50% lighter.

DAY 2-4

YIKES! They are SO dark & thick.

DAY 5-10

They are scabbing & itchy, no picking.

DAY 10-20

UHHH my brows disappeared?

DAY 20-30

The color is coming back, can't wait for my touch up.

DAY 42+

My brows are touched up and they look amazing!

*MILD SWELLING, ITCHING, SCABBING, LIGHT BRUISING, & DRY TIGHTNESS ARE ALL NORMAL FOR THE FIRST FEW DAYS.
